EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Franco Di Ligouri on 2 April 2007.

The application has been amended as follows:

Cancel claim 16.

The following is an examiner's statement of reasons for allowance: While prior art of record teaches means for displaying a first CAD data with the displayed image an already formed pattern and means for comparing first and second CAD data it cannot be shown that the these means in combination inherently teach means for displaying the first and second CAD data with the displayed image of the already formed pattern as an overlapped image on the monitor to enable evaluation of a deviation of the already formed pattern from the first and second CAD data. Accordingly, prior art of record does not teach means for displaying the first and second CAD data with the displayed image of the already formed pattern as an overlapped image on the monitor to enable evaluation of a deviation of the already formed pattern from the first and second CAD data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
